Student Feedback Analysis Report (2023)

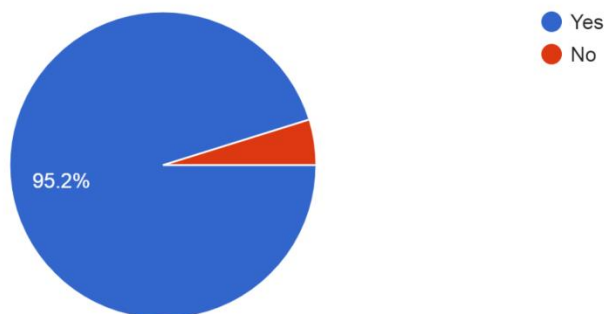

Student Feedback assessment was taken up with the following Objectives-

- I. To know the effectiveness of classroom teaching
- II. To develop better teacher – student relationship
- III. To evaluate and improve the teaching techniques

Student feedback form was prepared and sent online to all the students. Altogether 250 students responded. Based on the feedback, it was found that the class lectures are engaging and interesting for the students. The teachers make all effort to make the students understand the topic taught in the class which is well received by the student. There is also a good rapport and interactions between the teachers and students. The students learn more through Classroom discussion, Assignment and paper presentation. It was also found that summary of the topic, textual explanation and discussion are most useful for the students. Remedial class may be taken up for some students. The detail analysis of the feedbacks is given below-

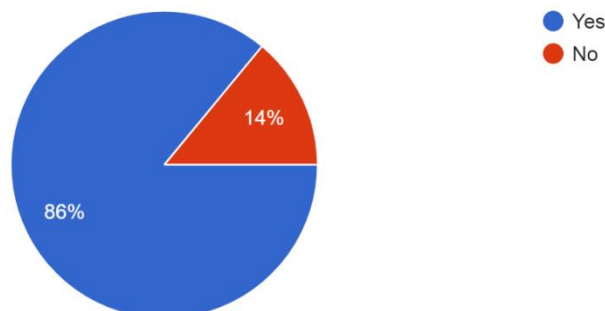

2. Before explaining the topic, the teachers get the attention of the students.

250 responses
