**STUDENT FEEDBACK ANALYSIS REPORT (2023)**

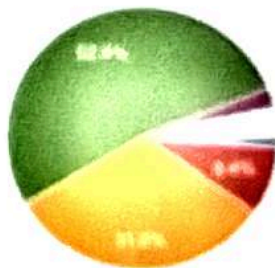

The student feedback forms were circulated to the students online with two main purposes taken into consideration -

- 1) To strengthen the quality of Teacher-Student learning environment, and
- 2) To look for opportunities to bring excellence in the Teacher- Student relationship.

A total of 470 students responded and gave their feedbacks and the findings are stated below: -

- 1) Approximately 84.2% students responded to attending classes at least 4 times a week  
- Reasons for not attending classes varied mostly between health issues and personal emergencies.

- 2) On the effectiveness of teachers, 92.3% students responded that they found their teachers to be interesting and easy to understand.  
- A drawback noticed was that 49.5% of the students never approached their teachers. But, for the rest that approached them at least once a week/month, it was seen that 95.5% of them responded positively to the availability of their teachers during work hours.  
Increased efforts to connect with students have been made through the use of media platforms like WhatsApp.  
- Syllabi coverage, experience with internal assessment and student- teacher interaction in class were mostly met in a positive light for the students.

Do you find your teachers interesting and easy to understand?  
462 responses

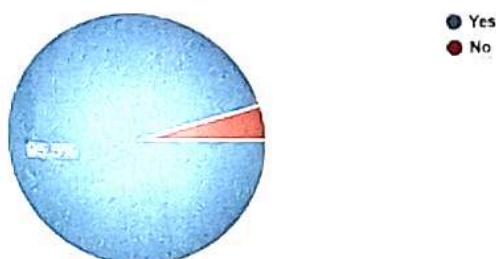

- YES
- NO

How often do you approach your teachers before or after classes?  
457 responses

Are your teachers available when you approach them during college working hours?
